

## Course Convenors

**Roberto Chiesa** Milano, Italy

**Antonio Maria Jannello** Negrar, Italy

## Honorary President

**Marcello Ceccaroni** President ISSA Negrar, Italy

**Alfredo Ercoli** AK1 Paris, France

## Tutors

**Guido Bellandi** Arezzo, Italy

**Luca Camozzi** Brescia, Italy.

**Stefano Camparini** Cagliari, Italy.

**Civilini Efreem** Milano, Italy

**Marc Coggia** Paris, France.

**Vincent Delmas** Paris, France.

**Luca Garriboli** Negrar, Italy.

**Gabriele Maritati** Rome, Italy.

**Giorgio Ventoruzzo** Arezzo, Italy

## ORGANIZING COMMITTEE

**Luca Garriboli:**

m.phone +39 338 8433121 Fax: +39 045 6013830

email: [luca.garriboli@gmail.com](mailto:luca.garriboli@gmail.com)

## How to Register

International bank transfert to:

“International School of Surgical Anatomy”.

**IBAN: IT 61 K 02008 11725 0001009 10560**

**BIC: UNCRITM1P07**

Object: “Paris OCTOBER 2015 Vascular Course Inscription”.

Complete the adhesion form (available at [www.issaschool.com](http://www.issaschool.com)) and send it, together with the invoice receipt, to the address [issasegreteria@gmail.com](mailto:issasegreteria@gmail.com) or to the fax number +39 045 6013830.

Registration withdrawals before August 30th, 2015 will be refunded at 50% of the given amount.

No money refund will be provided after that deadline.

## Educational needs and expected outcome

In the Endovascular Era is important that the surgeons do not lose their familiarity with the surgical skill indispensable for dealing with complications that may arise during endovascular treatment, or for confronting hybrid procedures.

The participants would benefit from the experience of expert tuition in aortic surgery in a very interactive and stimulating educational context.

## Objectives

This specific vascular course aims at improving knowledge of anatomical access to the thoracic and abdominal aorta and its branches including anatomic laparotomic and laparoscopic dissections and practice on fresh cadavers, with the contribution of experts in this field of Vascular Surgery.

The course is open to Vascular and General Surgeons from around the world who have successfully completed their surgical training or are at an advanced level of training.

**The official language is English.**

## Details

Maximum number of participants: **30**

Registration fee:

€ 2000 + 22% VAT (Total amount € 2440)

## Venue

[Universit  Paris-Descartes Laboratoire d'Anatomie 45, rue des Saint-P res, Paris](http://www.univ-paris5.fr)

**2<sup>nd</sup> Edition**

# COMPREHENSIVE ADVANCED COURSE ON VASCULAR SURGICAL ANATOMY AND SURGICAL TECHNIQUES

**Preliminary Program**

**Paris**

**03-05 December 2015**

## PROGRAM

1st day

### LECTURES 14.00-15.30

#### *Anatomy of Thoracic Aorta and TSA*

Anatomy of the thoracic aorta and the supra-aortic branches. Surgical access in elective end emergency situations.

#### *Techniques of Thoracic Aortic Repair*

Surgical techniques adopted during aortic repair, debranching, aortic surgery after failure of TEVAR

### SURGICAL DISSECTIONS 15.30-18.30

Thoracic surgical dissections of fresh cadavers under the guidance of an expert tutor.

Hands-on Training in Vascular Sutures and Graft Implanting.

## PROGRAM

2nd day

### LECTURES 8.30-10.00

#### *Anatomy of Abdominal Aorta*

Anatomy of the abdominal aorta and renal/visceral branches. Surgical access in elective and emergency situations (iuxta and suprarenal, infra-diaphragmatic, intra and extra-peritoneal).

#### *Techniques of Abdominal Aortic Repair*

Surgical techniques adopted during aortic repair, debranching, aortic surgery after failure of EVAR. Laparotomic approach to abdominal aorta and techniques to surgical repair.

### SURGICAL DISSECTIONS 10.00-12.30

Abdominal surgical dissections of fresh cadavers under the guidance of an expert tutor.

Hands-on Training in Vascular Sutures and Graft Implanting.

### LUNCH 13.00-14.00

### LECTURES 14.00-15.30

#### *Anatomy of Iliac Arteries (afternoon)*

Anatomy of the iliac arteries. Surgical access in elective and emergency situations (intra and extra-peritoneal).

#### *Techniques of Iliac Arteries Repair*

Surgical techniques adopted during the repair of iliac arteries and their use as access for endovascular procedures.

### SURGICAL DISSECTIONS 15.30-18.30

Pelvic surgical dissections of fresh cadavers under the guidance of an expert tutor.

Hands-on Training in Vascular Sutures and Graft Implanting.

### SOCIAL DINNER 21.00

## PROGRAM

3th day

### LECTURES 8.30-09.00

#### *Laparoscopic Approach of Abdominal Aorta*

Laparoscopic techniques to approach and repair the abdominal aorta and its branches.

### LAPAROSCOPIC DISSECTIONS

and

### SURGICAL DISSECTIONS 9.00-12.00

Abdominal laparoscopic and Abdominal/Thoracic surgical dissections of fresh cadavers under the guidance of an expert tutor.

Hands-on Training in Vascular Sutures and Graft Implanting.

### GREETINGS 12.30
