

ROME

CAPVT

CAROTID AORTIC PERIPHERAL VASCULAR TREATMENT

MUNDI

MAY, 23RD - 24TH 2017

Dear Friends and Colleagues,

Welcome to the third Carotid Aorta Peripheral Vascular Treatment – Rome CAPVT Mundi.

It is a great honour and pleasure to welcome you in this meeting organized by the School of Vascular and Endovascular Surgery of “Sapienza” University of Rome.

As Program Director, I wish to enhance the skills and expand the knowledge of vascular and endovascular treatment in all fields of vascular diseases.

The CAPVT program, in this third edition, would offer a comprehensive update on the state of the art in the field of the vascular pathology.

This year, debate will have a predominant space during the meeting, allowing a comprehensive discussion between worldwide recognized experts.

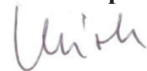

Indeed, faculty of the CAPVT has established international reputation as both clinicians and leaders in their fields.

I'm honoured to welcome a such extraordinary faculty of experts and an audience of clinicians from all specialties involved in vascular care, including vascular surgeons, cardiologists, and radiologists.

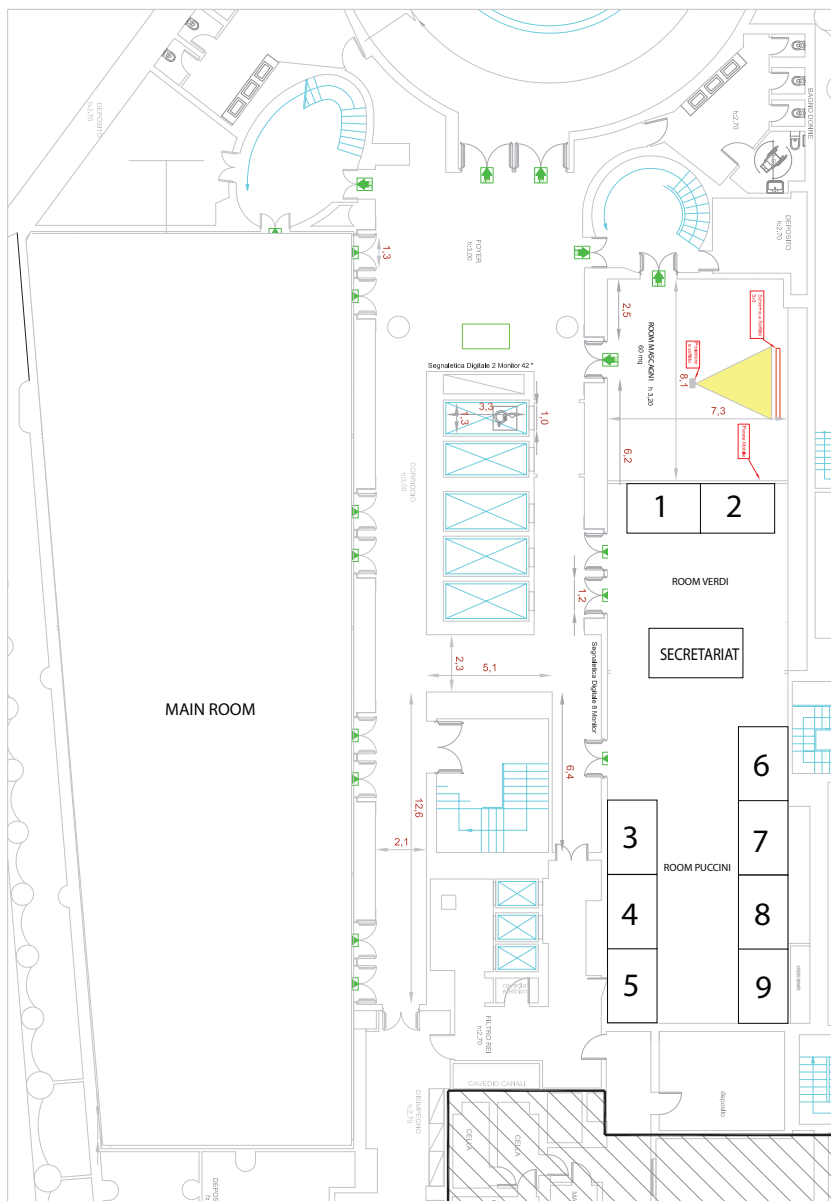

Faculty and attendees will interact on about the standard of care and alternative options in vascular pathology with special emphasis on how to manage complex diseases.

I hope, once again, that the quality of the venue and the beautiful and charming city of Rome will add special memories to the scientific program.

Francesco Speziale

PLANIMETRY

- A** Giancarlo Accarino - **Salerno**
 Federico Accrocca - **Rome**
 Domenico Alberti - **Viterbo**
 Vittorio Alberti - **Rome**
 Michele Antonello - **Padua**
 Angelo Argenterì - **Pavia**
 Andrea Ascoli Marchetti - **Rome**
- B** Guido Bajardi - **Palermo**
 Stefano Bartoli - **Rome**
 Domenico Benevento - **Siena**
 Raffaella Berchiolli - **Pisa**
 Pasquale Berloco - **Rome**

23 Tuesday

01:00PM - 02:00PM

ABSTRACT SESSION

Chairmen: *F. Pignatelli, P. Volpe*

Judges: *E. Cieri, G. Galzerano, G. Nano, G. Piffaretti*

-Epithelioid hemangioendothelioma (EHE) of the left pirogoff confluence: description of a case with notes of surgical anatomy and technique - *M. Romoli, R. Borghesi, A. Raucci, M. Pattavina, R. Altini, G. C. Masi, R. Milani, L. Pasi, E. Piccinini* – **Ravenna**

-Carotid stent thrombosis: acute or late onset complication? - *G. Varetto, E. Frola, L. Gibello, A. Trevisan, F. Spalla, M. A. Ruffino, P. Fonio, P. Rispoli* – **Turin**

-Eversion carotid endoarterectomy in young people: what happened to our patients after more than 10 years? - *M. Cherchi, G. Pistincu, N. Della Schiava, P. Petruzzo, P. Feugier* – **Lyon and Cagliari**

-Ultrasound guided loco-regional block during carotid endarterectomy - *F. Stilo, V. Catanese, N. Montelione, S. Bernardini, N. Preja, F. Spinelli* – **Rome**

-AV fistula: single center evolution - *C. Busoni, A. Lombardo, D. Frigerio, G. Ferrario, P. Serbelloni, S. Milani, E. Sironi, L. Lisi* – **Vimercate**

-Endovascular treatment of iliac aneurysm in a kidney transplant recipient - *G. Rossi, P. Perini, A. Ucci, T. Tecchio, F. Persi, R. M. D'Ospina, M. Fanelli, A. Freyrie* – **Parma**

-Endovascular therapy for femoropopliteal disease with the supera stent - *M. Martelli, V. Menegon, G. Guzzardi, P. Cerini, C. Stanca, E. Maduli, E. Zoppis, F. Casella, M. L. De Simeis, M. Aronici, F. Mottini, R. Cassatella, C. Porta, A. Carriero* – **Novara**

Tuesday **23**

SCHEDULE

-Hybrid retrograde revascularization of the superficial femoral artery -
D. Moniaci, A. Agostinucci, A. Bellan, A. Cumino, M. Destro, N. Sandrone, R. Suita, M. Trogolo, F. Ferrero – Turin

-Hybrid treatment of multilevel lower extremity arterial disease -
I. Ficarelli, C. Ruotolo – Naples

-Peripheral artery recanalization with Indigo system, preliminary experience - *L. Garriboli, A. M. Jannello – Negrar*

02:00PM - 03:00PM

SESSION I

ASYMPTOMATIC CAROTID ARTERY STENOSIS: WHAT WE SHOULD KNOW AND WHAT WE SHOULD DO

Chairmen: *G. M. Biasi, J. Busquet*

-RCTs are milestones in carotid artery revascularization. Lessons learned and implications in everyday clinical practice – *R. Pulli*

-Ongoing and incoming RCTs on CEA and CAS an indisputable necessity. How they will improve our ability to choose the right indications – *A. Halliday*

-DEBATE The right indication for patients with asymptomatic carotid artery stenosis:

- Almost no one can benefit from revascularization; therefore, surgical treatment is almost never indicated. BMT is almost the optimal treatment – *F. Veith*
- Only patients meeting specific criteria could benefit from carotid revascularization – *J. Fernandes e Fernandes*
- BMT alone is inadequate to prevent stroke, even in asymptomatic patients. The role and benefits of carotid revascularization – *C. Pratesi*

SCHEDULE 23 Tuesday

-Stroke is not the only neurological outcome in CEA and CAS.
The predictive role of TIA and silent brain infarction on dementia and long-term survival – *G. Faggioli*

Discussant: *G. Bertoletti, F. De Santis, P. Denaro, M. F. Giannoni, G. Illuminati, G. Maritati*

03:00 PM - 04:00PM

SESSION II

SYMPTOMATIC, ACUTE AND UNSTABLE PATIENTS: CURRENT BEST PRACTICE AND NEW PROMISING TECHNOLOGIES

Chairmen: *G. Lanza, C. Spartera*

-DEBATE Carotid revascularization is mandatory in symptomatic patients.
How could we reach a consensus on timing?

- Very early revascularization (within 48 hours) is safe and effective and represents the best choice for our patients – *C. Ruotolo*
- Very early revascularization has not proven to be safe and effective: why 3-15 days is the best choice for surgeons and patients – *A. Freyrie*

-Unstable patients still represent a challenge for surgeons and neurologists.
The role of carotid revascularization in cTIA and SIE – *D. Palombo*

-How to manage a patient with acute ischemic stroke: indication and technical tips and tricks from a high-volume center – *R. Gandini*

-New technology dual-layer carotid stent will revolutionize our practice.
Why I strongly believe in CAS renaissance – *C. Setacci*

Tuesday **23**

SCHEDULE

-Minimizing embolization during all procedural phases is the key for successful CAS: a novel combined approach: TCAR + micromesh stent – *P. Mousialek*

Discussant: *G. Accarino, R. Curci, V. D'Elia, M. F. Giannoni, O. Martinelli, A. Zaccaria.*

04:00PM - 05:00PM

SESSION III

AORTO-ILIAC OCCLUSIVE DISEASE: A WELL-KNOWN PATHOLOGY, A GREAT DEBATED TREATMENT

Chairmen: *O. Goeau-Brissonniere, L. Irace*

-Not always a great debate: we have no doubt about TASC A-C aorto-iliac lesions – *G. de Donato*

-DEBATE And what about TASC D lesions? Different solutions for different patients:

- Aorto-bifemoral bypass is the only treatment, the real “one-fit-all” – *M. Ferrari*
- Aorto-bifemoral bypass is obsolete, endovascular solution is the best by using:
 - Bare metal stents – *P. Castelli*
 - Covered stents – *F. Grego*
 - Endografts – *R. Silingardi*

-TASC D iliac lesions are often associated with CFA stenosis or occlusion. How to manage a multilevel disease – *A. Ippoliti*

Discussant: *A. Ascoli Marchetti, A. Cappelli, A. Ferrante, R. Gattuso, F. Setacci, N. Stella*

SCHEDULE **23** Tuesday

05:00PM - 06:00PM

SESSION IV

SFA AND POPLITEAL ARTERY DISEASE: SURGICAL OR ENDOVASCULAR TREATMENT

Chairmen: *G. Bajardi, L. Gabrielli*

-DEBATE Long (more than 15cm) SFA lesions, the only certainty is no certainties

- Optimal angioplasty and DCB are the right choice – *V. Brizzi*
- Optimal angioplasty is nothing without the right balloon – *G. Pratesi*
- Debulking in SFA – *S. Ronchey*
- Why not stenting if we have the right technology? – *A. Micari*

-DEBATE Occluded popliteal artery aneurysms: different experiences, different solutions

- I have no doubt: surgery is the best option – *F. Talarico*
- I don't agree: the endovascular approach is the best – *P. F. Veroux*

Discussant: *F. Accrocca, D. Benevento, R. Borioni, C. Ferrer, S. Furgiuele, M. Ruggeri*

Tuesday 23

SCHEDULE

06:00PM - 07:00PM

SESSION V

BELOW THE KNEE VESSELS OCCLUSION AND CRITICAL LIMB ISCHEMIA. WHEN THE GOING GETS TOUGH, THE TOUGH GET GOING

Chairmen: *J. Busquet, C. Rabbia*

-DEBATE Long and complex BTK vessels lesions require a surgical approach: only by-passes could reach limb salvage

- In all patients, in this way – *F. Spinelli*
- In all 4Ys patients, let me explain – *R. Ferraresi*
- In all patients? Why if we have these solutions? – *M. Salcuni*

-DEBATE Stem cells therapy in no-option CLI patients. How I do it.

- My personal experience – *M. A. Farina*
- An Italian Registry (SMOL) – *F. Peinetti*

-A complete revascularization is nothing without a proper wound care in CLI patients – *R. Fernandes e Fernandes*

-Ideas, solutions, drugs and technologies... but amputation is unavoidable in some patients – *M. Taurino*

Discussant: *F. Codispoti, M. Danese, A. R. Rizzo, P. Sapienza, A. Siani, F. Stilo*

07:00PM

OPENING CEREMONY

- Symposium Chairman – *F. Speciale*
- Head of Cardiac, Thoracic and Vascular Surgery, General Surgery, and Organ Transplantation Department - Policlinico Umberto I of Rome – *P. B. Berloco*
- S.P.I.G.C. Past-President – *E. Cigna*
- S.I.C.V.E. President – *A. Stella*
- Honorary Lecture “*Future of Vascular Surgery and how to succeed in it*” – *F. Veith*

24 Wednesday

08:00AM - 09:00AM

ABSTRACT SESSION

Chairmen: *R. Curci, M. Lenti*

Judges: *U. M. Bracale, A. Kahlberg, B. Pane, F. Pecoraro*

-Acute aortic dissection complicated by visceral ischemia - *P. Ottavi, R. Micheli, J. Delis, F. Grasselli, P. Bonanno, F. Ferilli* – **Terni**

-Thoracic endovascular aortic repair for embolizing total occlusion of the descending aorta due to aortic sarcoma - *S. Ferraro, G. Piffaretti, A. Tarallo, G. Mozzetta, M. C. Cervarolo, M. Franchin, P. Castelli* – **Varese**

-Suspected aorto bronchial fistula and endoleak type I B: why an urgent treatment? - *A. Settembrini, D. Mazzaccaro, L. Muzzarelli, E. Castronovo, P. Righini, A. Modafferi, G. Nano* – **Milan**

-Fenestrated and branched endovascular treatment of recurrent visceral aortic patch aneurysm after open thoracoabdominal repair - *L. Bertoglio, D. Mascia, A. Kahlberg, T. Cambiaghi, G. Melissano, R. Chiesa* – **Milan**

-TEVAR, FEVAR & BEVAR in redo-TAA surgery: the rescue option in a challenging condition - *L. Mezzetto, M. Macrì, P. Criscenti, F. Simoncini, F. Vaccher, L. Scorsone, G. F. Veraldi* – **Verona**

-Prevention of ischemic syndrome in a case of aorto-bisiliac aneurism associated with aorto-iliac-femoral extended thrombosis: hybrid unusual treatment (axillo-femoral by-pass + aortouniliac endoprosthesis) - *M. La Spada, S. Barbera, M. Macarone, E. Magazzù* – **Patti**

-Type III endoleak leading to aortic rupture 12 years after endovascular repair - *M. Leopardi, A. Salerno, R. Gabrielli, P. Scarpelli, M. Maiorano, M. Ventura* – **L'Aquila**

-CH-EVAR technique in solitary kidney patient with over anastomotic aortic aneurysm complicate to the obstruction of the celiac artery - *C. Belli, J. Ben Hamida, M. Fresilli, A. Giglio, V. Picone, D. Maruca, J. Jabbour, F. Faccenna, O. Martinelli, L. Irace, S. Venosi, R. Gattuso, B. Gossetti* – **Rome**

Wednesday **24**

SCHEDULE

-Endovascular sealing of aortocaval fistula in an abdominal aortic aneurysm rupture: a clinical case - *A. Lauricella, G. Saitta, S. Gennai, N. Leone, R. Silingardi* – **Modena**

-Outcomes and quality of life assessment after hypogastric artery revascularization during evar with Gore Excluder iliac branch endoprosthesis - *M. Orrico, S. Ronchey, B. Praquin, S. Fazzini, V. Alberti, I. Tuccimei, A. Davi, N. Mangialardi* – **Siena and Rome**

09:00AM - 10:00AM

SESSION VI

NEW AND INTERESTING TOPICS IN VASCULAR SURGERY AND MEDICINE; A COMPREHENSIVE APPROACH TO VASCULAR DISEASE

Chairmen: *F. Nessi, G. Simonetti*

-Acute kidney injury after open and endovascular elective repair for infrarenal abdominal aortic aneurysms – *P. Rispoli*

-Intraoperative monitoring during carotid revascularization: state of the art – *L. Tritapepe*

-**DEBATE** Isolated celiac trunk and superior mesenteric artery dissection: diagnosis, indications and...

- Surgical management – *S. Bonardelli*
- Endovascular management – *M. A. Ruffino*

-Urgent/Emergent endovascular rescue treatment for acute pulmonary embolism – *F. Fanelli*

24 Wednesday

-A new frontier in preoperative planning: potential advantages of using a 3D printer – *E. M. Marone*

Discussant: *G. Caselli, F. Drudi, R. Grossi, F. Ruberto, F. Stillo, S. Venosi*

10:00AM - 11:00AM

SESSION VII

VALVUAR, ASCENDING AORTA, AND ARCH DISEASE:
THE CHALLENGES OF A BORDER ZONE

Chairmen: *F. Fedele, C. Novali*

-TAVI is not anymore a compassionate treatment for highly compromised patients: why indications should be expanded to surgical fit patients – *G. Sardella*

-Endovascular solution for ascending aortic aneurysms, is the future here or should we wait for better and dedicated devices? – *N. Tsilimparis*

-DEBATE Repair of aortic arch aneurysms and dissections. My best solution:

- Hybrid repair has proven to be safe and effective – *R. Chiesa*
- CHIMPS are simple, reliable, and the preferred choice – *N. Mangialardi*
- Off- the-shelf fenestrated endografts are immediately available – *Z. Rancic*

-Blunt Trauma Aortic injury management: lacks in evidence to be overcome – *V. Rimbau*

Discussant: *P. Cappiello, C. Coscarella, F. Faccenna, S. Fazzini, E. Martelli, N. Montelione*

Wednesday **24**

SCHEDULE

11:00AM - 12:00AM

SESSION VIII

TYPE B AORTIC DISSECTION: NEW AVAILABLE IDEAS, TECHNIQUES AND GUIDELINES

Chairmen: *G. Bracale, G. Coppi*

-BMT in uncomplicated type B dissection: how to understand when it's sufficient and when a surgical approach is mandatory – *S. Trimarchi*

-Predictive factors for persistent patent false lumen and aneurysm formation after TEVAR for uncomplicated TBADs – *S. Camparini*

-Persistent patent false lumen after TEVAR is the Achilles' heel of TBADs treatment: what can we do to fix the problem? – *M. Malina*

-Conventional endografts are not the best solutions for TBAD. MFM stents could be better preserving aortic branch patency and inducing complete false lumen thrombosis – *A. Argenterì*

-Endovascular therapy, although fascinating, could not be considered a panacea. Open surgery has still a role under certain conditions – *G. Melissano*

-Type B Dissection management: the highlights from the 2017 ESVS guidelines – *V. Riantbau*

Discussant: *V. D'Elia, F. Ferilli, A. Giaquinta, M. Marino, M. Misuraca, G. Tinelli*

24 Wednesday

12:00AM - 1:00PM

SESSION IX

TAAA MANAGEMENT AFTER MORE THAN 50 YEARS OF EXPERIENCE:
HOW OPERATORS AND TECHNIQUES ARE CHANGING PATIENTS'
OUTCOMES

Chairmen: *A. Gaggiano, A. Jannello*

-DEBATE Could we identify the best treatment for TAAA? A personal experience:

- I have no doubt; open repair is and will ever be the procedure of choice – *L. Davidovic*
- F-EVAR and B-EVAR are now as good as open repair, or even better – *F. Verzini*
- A non-conventional disease requires non-conventional solutions: CHIMPS and imagination – *G. Fadda*

-Why a debate? A propensity-matched comparison for endovascular and open repair of thoraco-abdominal aortic aneurysms has already solved the issue – *P. Cao*

-Technique and limits of spinal drainage with TAAA repairs: how to prevent spinal drain complications – *F. Pugliese*

-Relevance of MEPs in endovascular TAAA repairs and strategies to decrease paraplegia – *P. Kasprzak*

Discussant: *S. Bartoli, R. Giudice, G. Pogany, A. Scuro, F. Setacci, Y. Tshomba*

Wednesday

SCHEDULE

24

01:00PM - 02:00PM

LUNCH

01:00PM - 03:30PM

ROOM TIZIANO

RAPID PAPER PRESENTATIONS

Chairmen: *L. Capoccia, W. Dorigo, G. Palasciano*

-Descending thoracic aorta intramural hematoma evolution: an hybrid approach – *R. Dito, N. Stella, L. Rizzo, F. Filippi, F. Aloisi, M. Taurino* – **Rome**

-Thoracic endovascular stent graft insertion for aortic invasive lung cancer – *B. Amato, G. Iannelli, G. Rocco* – **Naples**

-Rupture after type 2 endoleak without sac enlargement, a threatening condition – *M. Aronici, M. Martelli, G. Guzzardi, V. Menegon, R. Cassatella, F. Casella, M. L. De Simeis, F. Mottini, C. Porta* – **Novara**

-New frontiers in the treatment of aortic arch syndrome: an experience using branch devices – *R. Arzedi, M. Moro, G. Deiana, G. Genadiev, S. Camparini* – **Cagliari**

-Floating thrombosis in carotid artery. Surgical urgent approach management in a case report and single center experience – *A. Ascoli Marchetti, M. Diomedi, E. Piccione, A. Ranucci, R. Ciattaglia, F. M. Oddi, A. Ippoliti* – **Rome**

-Endovascular repair for blunt traumatic thoracic aortic injury with involvement of zone 1 – *G. Brancaccio, G. M. Celoria, T. Stefanini* – **La Spezia**

-Atypical or complex varices: what therapeutic strategy? – *S. Camilli* – **Rome**

24 Wednesday

-Giant internal carotid aneurysm after spontaneous dissection – M. Carlino, S. Brambilla, G. Corsi – **Milan**

-Off-label use of Gore® Excluder iliac branch endoprosthesis to treat isolated common iliac artery aneurysm – V. Catanese, F. Stilo, N. Montelione, S. Bernardini, N. Pareja, F. Spinelli – **Rome**

-Endovascular treatment of a difficult case: diverticulum of Kommerell – D. Cecere, R. Carbone, A. Guarino, G. Coppola, A. Bauleo, D. Ceriello, F. Nardi – **Caserta**

-Endovascular treatment of a large saccular aneurysm with intentional coverage of the celiac trunk – E. Centonza, E. Paciaroni, L. Farchioni, B. Fiorucci, S. Pelliccia, G. Pupo, F. Casali, M. Genua, F. Verzini – **Perugia**

-Last backdoor: combined antegrade and retrograde approach to treat complex infrainguinal arterial disease – A. Esposito, D. Menna, M. Salcuni, F. Di Leo, P. Benedetto, A. Trani, P. A. Cappiello – **Potenza**

-Effectiveness of intraoperative contrast enhanced ultrasound to detect endoleak during eva in two cases – M. Fanelli, C. Bianchini Massoni, P. Perini, A. Ucci, A. De Troia, F. Persi, A. Freyrie – **Parma**

-Fenestrated endograft to treat arterial visceral aneurysms – L. Farchioni, G. Simonte, B. Fiorucci, E. Paciaroni, S. Pelliccia, G. Pupo, F. Verzini, M. Lenti – **Perugia**

-Stem cells therapy in no-option CLI patients: how I do it, my experience – M. A. Farina, M. Danese – **Rome**

-Collected world wide experience from the pericles registry with the use of chimney grafts in the treatment of type I endoleaks after previous endovascular aneurysm repair shows reproducible results – S. Fazzini, S. Ronchey, M. Orrico, V. Alberti, B. Praquin, N. Mangialardi – **Rome**

-TEVAR for blunt thoracic aortic injury. Preliminary results – A. M. R. Ferrante, A. Cina, F. Codispoti, R. Manni, G. Tinelli, C. Vincenzoni, F. Snider – **Rome**

Wednesday

SCHEDULE

24

-Acute graft thrombosis and paraplegia, six months after TEVAR in a 22 years-old patient – M. Fresilli, F. Faccenna, A. Malaj, C. Belli, J. Ben Hamida, A. Giglio, V. Picone, D. Maruca, A. Di Girolamo, B. Gossetti – **Rome**

-Endovascular treatment of iliac endofibrosis. Only a secondary alternative? – F. Giacchi, G. Iacono, F. Marchetti, S. Turci, L. Braccini, G. U. Turicchia – **Cesena**

-Deferred urgency carotid-subclavian and TEVAR for blunt trauma of thoracic aorta – A. Giglio, J. Ben Hamida, C. Belli, M. Fresilli, V. Picone, D. Maruca, F. Faccenna, B. Gossetti, L. Irace – **Rome**

-A steerable sheath to deploy hypogastric bridging stent by contralateral femoral approach in an iliac branch procedure after EVAR – R. Grande, C. Ferrer, L. Venturini, L. di Marzo – **Rome**

-When an endoaleak becomes a nightmare! – A. Laurito, A. Monti, M. Maselli, P. Manzo, S. Quaglino, F. Sperti, A. Gaggiano – **Asti**

-The conventional surgery for AAA in the era of endovascular treatment: current guidance – A. Ascoli, Marchetti, G. Pratesi, M. Barbante, R. Bisceglie, A. Ranucci, R. Ciattaglia, F. M. Oddi, A. Ippoliti – **Rome**

-Emergency internal carotid artery stenting for acute occlusion after endarterectomy – M. Leopardi, A. Musilli, S. Salvati, A. Salerno, F. Ciocca, M. Ventura – **L'Aquila**

-Aorto-iliac obstructive disease: endovascular treatment. Single center experience – A. Lombardo, C. Busoni, D. Frigerio – **Vimercate**

-Endovascular treatment of abdominal aortoiliac anastomotic pseudoaneurysms – M. Martelli, V. Menegon, G. Guzzardi, P. Cerini, C. Stanca, F. Casella, M. L. De Simeis, M. Aronici, F. Mottini, R. Cassatella, C. Porta, A. Carriero – **Novara**

24 Wednesday

-Celiac trunk aneurysms: endovascular repair and a new treatment-oriented classification – D. Mascia, L. Bertoglio, A. Kahlberg, N. Carta, G. Melissano, R. Chiesa – **Milan**

-Clinical efficacy of cord blood platelet gel application to treat diabetic foot ulcers after lower limb revascularization – M. Massara, G. Stilo, F. Cutrupi, A. Longo, S. Marino, A. M. Malara, A. Alberti, P. Volpe – **Reggio Calabria**

-An aggressive strategy of iliac limb deployment may reduce iliac related secondary intervention after EVAR – M. A. Mele, G. Mazzitelli, G. Galzerano, M. Giubbolini, G. de Donato, C. Setacci – **Siena**
G. Melissano, R. Chiesa – **Milan**

-Prophylactic left subclavian artery revascularization in thoracic endovascular repair – R. Micheli, F. Ferilli, P. Ottavi, P. Bonanno, F. Grasselli, J. Delis – **Terni**

-An atypical case of buttock claudication after aortobifemoral bypass associated with iliac aneurysm treated with an hybrid approach – P. Perini, M. Azzarone, G. Rossi, B. Nabulsi, R. M. D'ospina, A. Freyrie – **Parma**

-Ruptured pararenal abdominal aortic aneurysm (PAAA): aortic replacement with left renal artery and vein reconstruction in emergency setting – V. Picone, J. Jabbour, C. Belli, A. Giglio, J. Ben Hamida, D. Maruca, M. Fresilli, O. Martinelli, L. Irace – **Rome**

-Minimally surgical approach for carotid artery: a case series – F. Pignatelli, A. E. Puca, E. Barone, A. S. D'Amodio, M. Tatafiore, A. Varriale – **Naples**

-Endovascular treatment of two cases of renal artery aneurysm – D. Foresti, T. Porretta, J. Oreglia, R. Codemo, C. Antona – **Milan**

-Early clinical experience with the double layer micromesh carotid artery stent in symptomatic carotid artery disease – L. Rossi, A. Froio, S. Pasquadibisceglie, G. Deleo, V. M. Segramora – **Monza**

Wednesday **24**

SCHEDULE

-Syngo I flow imaging technique during tevar for type b chronic aortic dissection. Case series – G. Tinelli, A. Sticchi, F. Minelli, F. Snider – **Rome**

-Carotid pseudoaneurysm after standard endoarterectomy: case report and review of the literature – G. Varetto, A. Trevisan, D. Pennica, F. Spalla, L. Gibello, P. Rispoli – **Turin**

-Urgent surgical management of a bleeding secondary aortoenteric fistula: construction of an autologous graft from the superficial femoral veins – M. Usai, A. Porcu, R. C. Vigliotti, A. Pinna, C. Donelli, V. Catanese, E. Martelli – **Sassari**

-Subcavian artery stenosing kinking – D. Vinciguerra, G. Guzzo, S. Turiano – **Catania**

-Open and endovascular management of blunt injuries of supra-aortic branches – S. Bonardelli, C. Zanotti, G. Mazzeo, B. Paro, E. Cervi, F. Nodari – **Brescia**

02:00PM - 03:00PM

SESSION X

COMPLEX ABDOMINAL AORTIC DISEASE: PARA-RENAL ANEURYSMS, MYCOTIC LESIONS, AND AORTIC GRAFT INFECTIONS

Chairmen: L. Di Marzo, P. G. Settembrini

-DEBATE Endovascular treatment of PAA is gaining terrain; is open repair still the gold standard, or at least a reliable alternative?

- Open repair is easy, cheap, and provides satisfactory outcomes – E. Civilini
- Two chimneys grafts could be safely performed in almost all patients – P. Frigatti

24 Wednesday

- There are no CHIMPS limits in most patients – *E. Ducasse*
- Now we have enough data, it's time to move to F-EVAR – *P. Kasprzak*

-DEBATE A focus on a rare and life-threatening disease and its management: mycotic aortic aneurysms

- For an infective disease, only an open approach could be curative – *O. Goeau-Brissonniere*
- Endovascular treatment is feasible and a durable treatment option – *N. Tsilimparis*

-How to manage aortic prosthetic graft infection: a comprehensive approach from a high-volume vascular center – *Z. Rancic*

Discussant: *V. Alberti, R. Berchiolli, N. Montelione, R. Perkman, L. Rizzo, A. Scurio*

03:00PM - 04:00PM

SESSION XI

LATEST NEWS IN ABDOMINAL AORTIC ANEURYSMS: INDICATIONS FOR ASYMPTOMATIC PATIENTS, AND TECHNICAL SKILLS FOR RUPTURED AAAS AND LOW-FLOW ENDOLEAKS MANAGEMENT

Chairmen: *F. Intriери, S. Michelagnoli*

-DEBATE Off-label use of commercially available endovascular devices, could we reach a consensus?

- Off-label use of EVAR devices treating AAAs with challenging anatomies is safe, effective, and supported by current data – *M. Malina*

Wednesday **24**

SCHEDULE

- Off-label use of EVAR devices treating AAAs with challenging anatomies is hazardous – *M. Gargiulo*

-How to expand Indications for treatment with standard EVAR in patients with challenging anatomies. Rationale and design of a multi-centric prospective evaluation – The EXTREME Registry – *F. Speziale*

-Endovascular Aneurysm Sealing (EVAS): early and mid-term results of a new concept treatment option – *B. Gossetti*

-Type II endoleaks is not a benign condition. Rationale for a preventive treatment in all patients undergoing EVAR – *M. Antonello*

-Only persistent type II endoleaks should be treated: challenges and solutions – *M. Rossi*

-DEBATE A Trans-Atlantic debate on ruptured AAAs. East meets West:

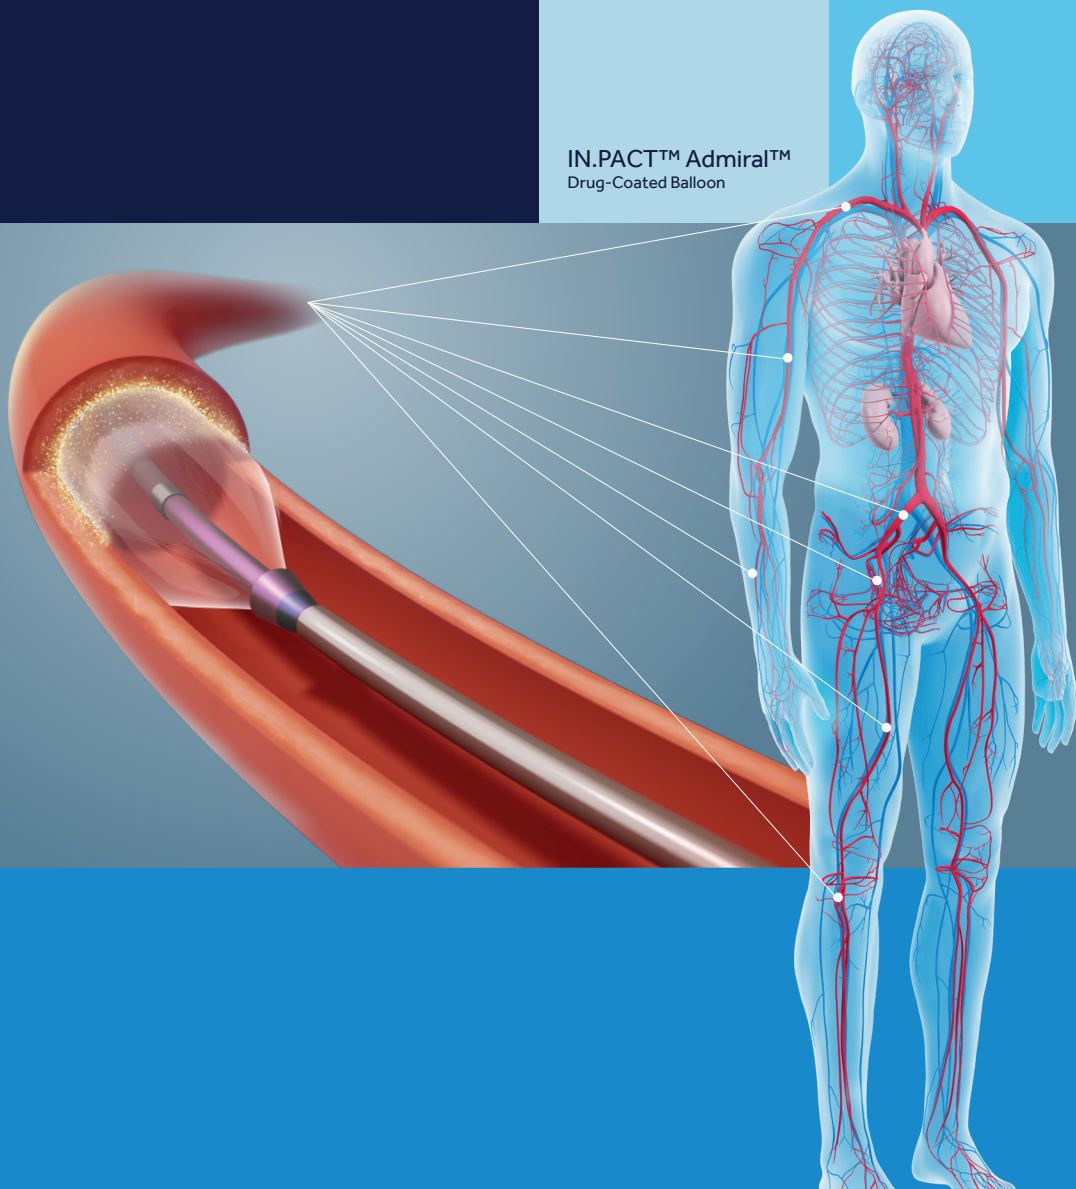

- Strategies and Techniques for improving results with EVAR for ruptured AAAs: EVAR is best if it can be done – *F. Veith*
- The rationale for continuing open repair of ruptured AAAs – *L. Davidovic*

Discussant: *D. Alberti, A. Esposito, E. Martelli, J. Jabbour, G. La Barbera, F. Snider*

ORGANIZING SECRETARIAT

G.C. srl

Viale Cortina d'Ampezzo 170

00135 Rome

Tel. 0685305059

e.mail: segreteria@gc-conor.it

CONGRESS LOCATION

NH Hotel Vittorio Veneto

Corso d'Italia, 1 – 00198 Rome

SECRETARIAT ON CONGRESS SITE

The Organizing secretariat will open half an hour before and close half an hour after the scheduled sessions

TECHNICAL EXPOSITION

The technical Exposition will be held in parallel with the Congress

REGISTRATION INFORMATION

The registration fee is complimentary.

The registration must be sent to (segreteria@gc-conor.it) G.C. srl.

PARTICIPATION CERTIFICATE

Participation Certificates will be released on May 24th to all the registered participants from the Secretariat when required.

OFFICIAL LANGUAGE

Slides must be prepared in English; presentation and discussion will be indifferently in Italian or English language.

SLIDE CENTER

*Personal Computers **cannot be** connected directly to the projector. Faculty members are kindly required to deliver their presentations to the slide center at least 30 minutes before the beginning of their sessions. Presentations will have to be prepared on Microsoft Power Point (.ppt) and will have to be saved on a USB pen drive.*

SIMULTANEOUS TRANSLATION

During the congress simultaneous translation from Italian to English is provided.

2015 – BEST ABSTRACT

Late abdominal aortic aneurysm rupture: type Ib endoleak.

M. De Masi, P. Amabile, B. David, M. Gaudry, F. Beranger, L. Bal, S. Cohen, P. Piquet. Marseille

2016 – BEST ABSTRACT

Inflammatory response modulation through PPAR γ agonist (pioglitazone) during surgically induced visceral ischemia in animal model.

V. Gazzola, G. Spinella, B. Pane, C. Perfumo, D. Musio, S. Di Gregorio, T. Peretti, M. A. Mura, L. Porro, D. Palombo. Genova

2016 – BEST RAPID PAPER

“Blue-toe” syndrome due to multiple aortic lesions: a report of two cases.

J. Ben Hamida, F. Frezzotti, C. Belli, A. Giglio, M. Fresilli, V. Picone, B. Gossetti. Rome
