

ROMA CAPVT MUNDI

Carotid Aortic Peripheral Vascular Treatment

MAY, 21st - 22nd 2019

NH Vittorio Veneto, Corso d'Italia, 1 - Rome

21

MAY 2019

Hotel NH Collection
11.45 AM - 07.30 PM

PROGRAM

11.45 - 13.45	ABSTRACT SESSION I
13.45 - 14.00	OPENING REMARKS
14.00 - 15.00	SESSION I <i>Carotid artery disease in new ESVS guidelines</i>
15.00 - 16.00	SESSION II <i>Images generation and interpretation, and radioprotection</i>
16.00 - 17.00	SESSION III <i>Ascending aorta and aortic arch</i>
17.00 - 18.00	SESSION IV <i>Descending thoracic aorta and aortic dissection</i>
18.00 - 19.00	SESSION V <i>Thoraco-abdominal aortic aneurysms</i>
19.00 - 19.30	LECTURES

MAY, 21st

ABSTRACT SESSION I

11.45 - 13.45

Moderators: Giancarlo Accarino, Giorgio U. Turicchia

Judges: Bruno Amato, Luigi Rizzo, Pietro Volpe, Filippo Benedetto

Embolic signals detection study (ESDS) in candidates for surgical carotid revascularisation: a comparison with plaque histological findings.

Scinica G, Moratto R, Pizzarelli G, Lauricella A, Silingardi R
Modena

A predictive score for perioperative complications following carotid endarterectomy performed in asymptomatic patients.

Giacomelli E, Dorigo W, Bassoli G, Paperetti L, Fargion AT, Melani A, Speciali S, Pratesi C
Firenze

Critical calcified carotid stenosis treated with the shockwave lithoplasty.

Grillo P, Tripolino C, Tassone EJ, Morabito G, Missiroli B
Catanzaro

How to manage true aneurysms of internal carotid artery - A single Center experience.

Miccoli T, Garriboli L, Pruner P, Tamellini P, Recchia A, Jannello AM
Negrar

Endovascular treatment of a giant vertebral arteriovenous fistula in Neurofibromatosis type 1.

D'Ospina RM, Azzarone M, Menozzi R, Piazza P, Boschi E, Bramucci A, Mariani E, Freyrie A
Parma

Matching analysis between classic and arch first technique in Frozen Elephant Trunk for aortic arch repair.

Fittipladi A, Bertoglio L, Salvati S, Redaelli P, Verzini A, Melissano G, Chiesa R, Castiglioni A
Milano

Endovascular treatment of the isthmus rupture: early outcome.

Pagliariccio G, Gatta E, Grilli Cicilioni C, Carbonari L
Ancona

MAY, 21st

ABSTRACT SESSION I

Safety and feasibility of the Distal Extended EndoVascular Aortic Repair-Petticoat (DEEVAR-Petticoat) as an adjunct to thoracic endovascular aortic repair in the setting of complicated acute type B aortic dissection.

*Leo E, Molinari ALC, Ferrari SA, Terzi A, Sommaruga S, Rossi G
Lecco*

Computational fluid dynamic (CFD) analysis and engineering studies for practical management of thoracic aortic diseases.

*Menegon V, Domanin M, Alberto S, Romanovski R, Conti M,
Auricchio F, Trimarchi S
Milano*

Computed tomography post-processing for abdominal aortic aneurysm lumen recognition in unenhanced exams.

*Baccani L, Cieri E, Simonte G, Costarelli D, Fiorucci B, Isernia G,
Seracini M, Vinti G
Perugia*

Vascular external support device for native A-V fistula: impact on maturation.

*Tabbi P, De Gregorio C, Grossi R, Giudice R, Coscarella C, Mariotti F,
De Pasquale F
Roma*

The importance of vascular surgeon in tertiary referral hospitals.

*Masoni C, Mocellin DM, Tomei F, Marconi M, Adami A, Berchiolli R,
Ferrari M
Pisa*

Primary endovascular treatment of iliac and aorto-iliac arteries obstructive disease: single-center retrospective study.

*Citoni G, Barbante M, Pezzulla MG, Marcon SM, Oddi FM, Pezulla G,
Carnevale R, Ippoliti A
Roma*

MAY, 21st

ABSTRACT SESSION I

.....

Endovascular treatment of complex aorto-iliac occlusive disease.

Zacà S, Cimoli L, Mastrangelo G, Tedesco M, Marinazzo D, Angioletta D, Pulli R
Bari

Influence of diabetes on superficial femoral artery endovascular recanalization is debatable.

D'Andrea A, Rizzo L, Orlando P, Stella N, Taurino M
Roma

Single-center experience of first-line approach with drug-eluting balloon in the treatment of femoro-popliteal occlusive disease.

Dinoto E, Pecoraro F, Mirabella D, Ferlito F, Farina A, Lo Biundo N, Conti P, Bajardi G
Palermo

Monocentric experience on surgical treatment of infectious aneurisms of the aorto-iliac tract.

Minelli F, Tshomba Y, De Nigris F, Natola M, Scurto L, Tinelli G
Roma

Unusual cause of abdominal aortic rupture.

Bozza R, Squizzato F, Piazza M, Grego F, Antonello M
Padova

Xenografts in the treatment of aortic (endo)graft infection: preliminary experience.

Oddi FM, Brizzi V, Ducasse E, Berard X
Roma and Bordeaux

Cryopreserved vascular allografts: results and possible cause of early, and late complications

Stringari C, Coppi G, Pipitone MD, Zaraca F, Perkmann R
Bolzano

MAY, 21st

OPENING REMARKS

Congress Chairman: Francesco Speziale

SESSION I

Carotid artery disease in new ESVS guidelines

Moderators: Luca Di Marzo, Gaetano Lanza, Carlo Setacci

- 14.00 - 14.05 **Why asymptomatic patients should be revascularized: new ESVS guidelines have the final word.**
Laura Capoccia
- 14.05 - 14.10 **Why asymptomatic patients should be revascularized: medical therapy must be optimized.**
Christos Liapis
- 14.10 - 14.15 **DEBATE More speculations on ESVS Guidelines: the “average surgical risk” patient should be treated by CEA.**
Josè Fernandes e Fernandes
- 14.15 - 14.20 **DEBATE More speculations on ESVS Guidelines: the “average surgical risk” patient should be treated by CAS.**
Gianluca Faggioli
- 14.20 - 14.25 **Is carotid stenting (CAS) largely equivalent to CEA for most patients with significant carotid disease & indications for revascularization: current status and open questions.**
Frank J. Veith
- 14.25 - 14.30 **Rationale for a systematic pre-operative cardiological evaluation before elective carotid endarterectomy.**
Walter Dorigo
- 14.30 - 14.35 **TCAR protection system and new horizons in carotid endovascular surgery.**
Glenn LaMuraglia
- 14.35 - 14.40 **Could new dual-layer carotid artery stent provide a safe CAS treatment in acute patients?**
Enrico Sbarigia
- 14.40 - 15.00 **Discussion animated by** *Andrea Ascoli Marchetti, Domenico Benevento, Giulio Illuminati, Paolo Mortola, Matteo Stefanini, Gennaro Vigliotti*

MAY, 21st

SESSION II

Images generation and interpretation, and radioprotection

Moderators: Maurizio Cariati, Piergiorgio Settembrini,
Giovanni Simonetti

- 15.00 - 15.05 **The use of CO₂-angiography: a promising alternative to iodinated contrast medium during endovascular procedure.**
Nikolaos Tsilimparis
- 15.05 - 15.10 **Fusion imaging reduces radiation and contrast medium exposure during complex aortic repair.**
Enrico Cieri
- 15.10 - 15.15 **Role of MRI in follow-up after EVAR: is it time to set a new gold-standard?**
Ombretta Martinelli
- 15.15 - 15.20 **What I do, and what I should do to reduce the exposure to ionizing radiation: radiologist-driven suggestions and criticisms.**
Maria Antonella Ruffino
- 15.20 - 15.25 **Evaluating and reducing exposure to ionizing radiation: surgeon-driven suggestions and criticisms.**
Vincenzo Brizzi
- 15.25 - 15.30 **Characterization of the carotid plaque with ultrasound, computed tomography, and magnetic resonance: could images identify high-risk lesions?**
Christos Liapis
- 15.30 - 15.35 **Contrast-enhanced ultrasonography: advantages and future perspectives in vascular imaging.**
Maria Fabrizia Giannoni
- 15.35 - 15.40 **Optical Coherence Tomography during carotid artery stenting: images driven therapy.**
Francesco Setacci
- 15.40 - 16.00 **Discussion animated by** *Domenico Alberti, Giuseppe Galzerano, Gaetano La Barbera, Antonio Lorigo, Paolo Ottavi, Matteo Stefanini, Giovanni Tinelli*

MAY, 21st

SESSION III

Ascending aorta and aortic arch

Moderators: Roberto Chiesa, Francesco Fedele, Carlo Pratesi

16.00 - 16.05 **Is it possible to predict a role for endovascular surgery in ascending aorta?**

Nicola Mangialardi

16.05 - 16.10 **Inner curvature aortic arch aneurysm: advantages using a new fenestrated device.**

Michelangelo Ferri

16.10 - 16.15 **Double inner branch devices for arch disease: results from an Italian registry.**

Ciro Ferrer

16.15 - 16.20 **Frozen Elephant Trunk: How? When? Why?**

Santi Trimarchi

16.20 - 16.25 **Complex endovascular aortic arch procedures: is their time now?**

Nikolaos Tsilimparis

16.25 - 16.30 **Acute non-A non-B aortic dissection: incidence, treatment and outcomes.**

Andrea Kahlberg

16.30 - 16.35 **Incidence and fate of cerebral embolization and neurological complications during TAVI.**

Gennaro Sardella, Massimo Mancone

16.35 - 16.40 **How to prevent cerebral embolization and neurological complications during complex endovascular aortic procedures.**

Theodosios Bisdas

16.40 - 16.45 **Stent-Assisted Balloon-Induced Intimal Disruption and Relamination in Aortic Dissection Repair: how to STABILISE an unstable disease.**

Germano Melissano

16.45 - 17.00 **Discussion animated by** *Vittorio Alberti, Giovanni Bertoletti, Raul Borioni, Cristina Chaves, Wassim Mansour, Gabriele Pogany, Andrea Siani, Francesco Zaraca*

MAY, 21st

SESSION IV

Descending thoracic aorta and aortic dissection

Moderators: Stefano Bonardelli, Lazar Davidovic, Domenico Palombo

- 17.00 - 17.05 **Management of the acute uncomplicated Type B aortic dissection: recommendations from the European guidelines.**
Vincente Rimbau
- 17.05 - 17.10 **False lumen thrombosis is crucial in Type B Aortic dissection therapy: how to obtain it? My personal technical notes.**
Piotr Kasprzak
- 17.10 - 17.15 **When true lumen re-expansion is not enough: endovascular fenestration, stenting, and all I can do to treat visceral malperfusion.**
Nicola Mangialardi
- 17.15 - 17.20 **Improve imaging to improve outcomes: new diagnostic and intraprocedural tools.**
Enrico M. Marone
- 17.20 - 17.25 **DEBATE Improve devices to improve outcomes: how a precise deployment helps in real practice.**
Bianca Pane
- 17.25 - 17.30 **DEBATE Improve devices to improve outcomes: how a new low-profile TEVAR device expands therapeutic options.**
Fabio Verzini
- 17.30 - 17.35 **DEBATE Improve devices to improve outcomes: regeneration trial, an update.**
Rocco Giudice
- 17.35 - 18.00 **Discussion animated by** *Stefano Bartoli, Jihad Jabbour, Gaetano La Barbera, Eugenio Martelli, Barbara Praquin, Paolo Sapienza, Nazareno Stella*

MAY, 21st

SESSION V

Thoraco-abdominal aortic aneurysms

Moderators: Piergiorgio Cao, Francesco Pugliese, Vincente Rimbau

18.00 - 18.05 **DEBATE TAAA remains the most challenging vascular procedure, both for patients and surgeons. Key to success is to perform the right treatment: whenever possible use an off-the-shelf endovascular device.**

Michele Antonello

18.05 - 18.10 **DEBATE TAAA remains the most challenging vascular procedure, both for patients and surgeons. Key to success is to perform the right treatment: only a tailored approach using custom made devices could ensure satisfactory results.**

Mauro Gargiulo

18.10 - 18.15 **DEBATE TAAA remains the most challenging vascular procedure, both for patients and surgeons. Key to success is to perform the right treatment but, in most patients, no standard device could guarantee success.**

Eric Ducasse

18.15 - 18.20 **DEBATE TAAA remains the most challenging vascular procedure, both for patients and surgeons. Key to success is open repair: there is no room for discussion.**

Lazar Davidovic

18.25 - 18.30 **When repair is not performed: fate of TAAA patients left untreated.**

Gabriele Piffaretti

18.30 - 18.35 **Power is nothing without control: visceral and spinal cord protections are crucial during any kind of TAAA repair.**

Yamume Tshomba

18.35 - 18.40 **Ischaemic preconditioning of the spinal cord to prevent spinal cord ischaemia during endovascular repair of thoracoabdominal aortic aneurysm: first clinical experience.**

Daniela Branzan

18.40 - 18.45 **F/B EVAR: reintervention during follow-up.**

Piotr Kasprzak

18.45 - 19.00 **Discussion animated by Carlo Coscarella, Maria Misuraca, Franco Ruberto, Giovanni Spinella, Francesco Stilo, Alessio Vona**

MAY, 21st

HONORARY LECTURE

19.00 - 19.15 **Impact of endovascular grafts on vascular treatment: a personal perspective.**

Frank J. Veith

HISTORICAL LECTURE

19.15 - 19.30 **How diseases have been represented in painting during the centuries.**

Angelo Argenterì

Prof Roberto Alessandri and disciples (oil on canvas, ca. 1935) by Roberto Fantuzzi

22

MAY 2019

Hotel NH Collection
08.00 AM - 05.30 PM

PROGRAM

08.00 - 09.00	ABSTRACT SESSION II
09.00 - 10.00	SESSION VI <i>Abdominal aortic aneurysms</i>
10.00 - 11.00	SESSION VII <i>More on abdominal aortic aneurysms and aortic infections</i>
11.00 - 12.00	SESSION VIII <i>Isolated iliac and visceral aneurysms</i>
12.00 - 13.00	SESSION IX <i>Chronic venous disease, deep venous thrombosis, and pulmonary embolism</i>
13.00 - 14.00	LUNCH
14.00 - 15.00	SESSION X <i>Aorto-iliac occlusive disease</i>
15.00 - 15.15	LECTURE
15.15 - 16.15	SESSION XI <i>Infrainguinal, popliteal, and below-the-knee vessels diseases</i>
16.15 - 17.15	SESSION XII <i>More on infrainguinal, popliteal, and below-the-knee vessels diseases</i>
17.15 - 17.30	CLOSING REMARKS

MAY, 22nd

ABSTRACT SESSION II

8.00 - 09.00

Moderators: Pierluigi Cappiello, Enrico Sbarigia

Judges: Umberto M. Bracale, Giovanni Credi, Andrea Gaggiano, Gennaro Vigliotti

Endovascular treatment with AFX endoprothesis in the Abdominal aortic wall degeneration and focal aortic dissection. A personal Experience.

Alberti A, Massara M, Volpe P
Reggio Calabria

Contained Rupture in Non-Aneurysmal Aorta: 10 years' Experience of Endovascular Repair of Penetrating Aortic Ulcers.

Spath P, Faggioli G, Pini R, Gallitto E, Ancetti S, Sonetto A, Mascoli C, Gargiulo M
Bologna

PNA hostility and its impact on vascular choice: "EVAR First" also in "fit-for-open-repair" patients?

Gianfrancesco E, Palmieri A, Fiore FM
Chieti

Para-Anastomotic Aneurysms 15 years after aortobisiliac bypass for AAA.

Di Girolamo A, Giglio A, Picone V, Maruca D, Del Monte M, Jabbour J, Gattuso R
Roma

Surgical transposition of the isolated left vertebral artery during thoracic endovascular stent-graft repair for aortic arch disease hybrid repair.

Piffaretti G, Tadiello M, Rivolta N, Ferrarese S, Tozzi M
Varese

Total endovascular repair of aberrant right subclavian artery aneurysm using the periscope technique.

Righini P, Mazzacaro D, Marrocco-Trischitta M, Modafferi M, Malacrida G, Nano G
San Donato Milanese

Endovascular strategies for treatment of splenic artery aneurysm. A single Center experience.

Esposito A, Baiano A, Benedetto P, Di Leo F, Trani A, Cappiello PA
Potenza

MAY, 22nd

ABSTRACT SESSION II

Externally supported vein bypass graft for acute arm ischemia after prosthetic shoulder replacement.

*Vigliotti RC, Stilo F, Montelione N, Spinelli
Roma, and Sassari*

Are small popliteal aneurysms so innocent?

*Gabrielli R, Turco GL, Bafle G, Scalisi LA, Di Girolamo C, D'Elia C
Avezzano*

Peripheral blood mononuclear cell-therapy for adjuvant treatment of lower limb ischemia in diabetic revascularizable patients: ROTARI preliminary results.

*Ruggeri M, Senese S, Palasciano G, Pompeo F, Camparini S, Guerrieri MW, Camilli D, Furgiuele S
Rieti, Caserta, Siena, Pozzilli, Cagliari, and Roma*

MAY, 22nd

SESSION VI

Abdominal aortic aneurysms

Moderators: Patrizio Castelli, Antonio M. Jannello,
Francesco Speziale

- 09.00 - 09.05 **DEBATE** No-neck aortic aneurysms, several possible solutions. Only fenestrated grafts guarantee durable results: good things take time.
Gianfranco Fadda
- 09.05 - 09.10 **DEBATE** No-neck aortic aneurysms, several possible solutions. Parallel grafts are safe, effective, simply to use, and always available.
Martin Malina
- 09.10 - 09.15 **DEBATE** No-neck aortic aneurysms, several possible solutions. Aortic neck is no longer required: what we learned using a low-profile polymer-based endograft.
Genadi Genadiev
- 09.15 - 09.20 **DEBATE** No-neck aortic aneurysms, several possible solutions. Open repair is the treatment of choice: it's proven!
Carlo Ruotolo
- 09.20 - 09.25 **A new risk index for prediction of intraoperative blood transfusion in endovascular aneurysm repair.**
Maurizio Taurino
- 09.25 - 09.30 **Management of ruptured unstable AAAs with emergent endovascular techniques: a single center experience.**
Antonio Lauricella
- 09.30 - 09.35 **DEBATE** Endovascular Aneurysm Sealing: a betrayed promise? Not at all: inside IFU results are fairly good.
Bruno Gossetti
- 09.35 - 09.40 **DEBATE** Endovascular Aneurysm Sealing: a betrayed promise? I believe so: something went wrong, especially with very liberal indications.
Antonio Freyrie
- 09.40 - 10.00 **Discussion animated by** *Federico Accrocca, Matteo Barbante, Anna Rita Rizzo, Massimo Ruggeri, Annalisa Schioppa, Regina Stumpo*

MAY, 22nd

SESSION VII

More on abdominal aortic aneurysms and aortic infections

Moderators: Stefano Campanini, Luigi Irace, Glenn LaMuraglia

- 10.00 - 10.05 **Bridging stents in aortic disease: do they all perform the same way?**
Maria Antonella Ruffino
- 10.05 - 10.10 **What we know, and what we should know on long-term results after EVAR.**
Luca Di Marzo
- 10.10 - 10.15 **What we learned on long-term results in more than 15 years EVAR experience.**
Massimo Lenti
- 10.15 - 10.20 **Type II endoleaks: incidence, and natural history. Do they always deserve a treatment?**
Emiliano Chisci
- 10.20 - 10.25 **Late AAA rupture after EVAR: aetiology, best treatment and outcomes. Are we missing something?**
Eric Ducasse
- 10.25 - 10.30 **Aortic graft and endograft infections: diagnosis, medical management, and prognosis.**
Angelo Pan
- 10.30 - 10.35 **Despite all certainties, (semi)conservative treatment could represent an effective therapy for aortic infections.**
Zoran Rancic
- 10.35 - 10.40 **We have too much evidence to ignore it: only an aggressive surgical treatment could eradicate infections.**
Franco Grego
- 10.40 - 10.45 **Spontaneous aortic rupture: diagnosis, and treatment.**
Maria Grazia Bordoni
- 10.45 - 11.00 **Discussion animated by** *Raffaella Berchiolli, Carlo Cavazzini, Francesco Codispoti, Francesco De Santis, Federico Filippi, Nunzio Montelione*

MAY, 22nd

SESSION VIII

Isolated iliac and visceral aneurysms

Moderators: Alessandro Cappelli, Giovanni Nano, Pietro Rispoli

- 11.00 - 11.05 **Isolated common iliac artery aneurysms treated with iliac branch stent-grafts: can 100% of patients be treated?**
Alessia Giaquinta
- 11.05 - 11.10 **Results of the multicenter pELVIS registry for isolated common iliac aneurysms treated by the iliac branch device.**
Giovanni Pratesi
- 11.10 - 11.15 **Open repair for isolated common iliac artery aneurysms: all patients can be treated with excellent long-term results.**
Efrem Civilini
- 11.15 - 11.20 **Endovascular repair of ruptured isolated iliac artery aneurysms as a primary treatment strategy.**
Zoran Rancic
- 11.20 - 11.25 **Strategies and technical tips for surgical and endovascular treatment of giant hypogastric artery aneurysm.**
Jacques Busquet
- 11.25 - 11.30 **A rare but dangerous complication: colonic ischemia after standard endovascular abdominal aortic aneurysm repair.**
Mauro Ferrari
- 11.30 - 11.35 **Visceral artery aneurysms management: different techniques and different devices.**
Irene Morelli
- 11.35 - 11.40 **Endovascular management of ileopsoas hematoma.**
Maurizio Cariatì
- 11.40 - 12.00 **Discussion animated by** Cesare Battocchio, Roberto Chiappa, Giovanni Credi, Ilaria Ficarelli, Mario Marino, Chiara Pranteda

MAY, 22nd

SESSION IX

Chronic venous disease, deep venous thrombosis, and pulmonary embolism

Moderators: Jacques Busquet, Massimo Danese, Paolo Zamboni

- 12.00 - 12.05 **Lower limb chronic venous disease: physiopathology and clinical findings.**
Paolo Zamboni
- 12.05 - 12.10 **Deep venous surgery: current possibilities and new perspective, is the future endoluminal?**
Marzia Lugli
- 12.10 - 12.15 **Medical management of acute deep venous thrombosis: a practical guide.**
Adriana Visonà
- 12.15 - 12.20 **Contemporary interventional management of the acute deep venous thrombosis: thrombectomy, lytic agents, stent, and much more.**
Theodosios Bisdas
- 12.20 - 12.25 **Let's look forward: novel endovenous scaffold for the treatment of chronic venous obstruction.**
Pierfrancesco Veroux
- 12.25 - 12.30 **Acute massive and sub-massive pulmonary embolism: validation of aspiration mechanical thrombectomy in a single center experience.**
Massimo Pieraccini
- 12.30 - 12.35 **Diagnosis and management of central vein stenosis in patients with upper limb arteriovenous dialysis access.**
Matteo Tozzi
- 12.35 - 12.40 **The current role of venous surgery in the USA, a difficult balance between costs and patients' expectations.**
Glenn LaMuraglia
- 12.40 - 13.00 **Discussion animated by** *Filippo Benedetto, Sante Camilli, Claudia Maggiore, Paola Notari, Alfonso Pannone, Salvatore Venosi*
- 13.00 - 14.00 **LUNCH**

MAY, 22nd

SESSION X

Aorto-iliac occlusive disease

Moderators: Guido Bajardi, Francesco Intrieri, Stefano Michelagnoli

- 14.00 - 14.05 **DEBATE** Management of total juxta-renal aortic occlusive disease in standard risk patients: endovascular solutions are nowadays the standard of care. For the motion.
Sonia Ronchey
- 14.05 - 14.10 **DEBATE** Management of total juxta-renal aortic occlusive disease in standard risk patients: endovascular solutions are nowadays the standard of care. Against the motion.
Claudio Novati
- 14.10 - 14.15 **Techniques and results of kissing stent in the management of aortoiliac obstructive disease.**
Raffaele Pulli
- 14.15 - 14.20 **Long-term results of endovascular management of complex TASD C/D aorto-iliac lesions.**
Michele Piazza
- 14.20 - 14.25 **DEBATE** There is no more room for open surgery in patients with isolated long external iliac artery occlusions.
Paolo Frigatti
- 14.25 - 14.30 **DEBATE** In selected cases open surgery is still the best option for patients with isolated long external iliac artery occlusions.
Reinhold Perkmann
- 14.30 - 14.35 **Despite all technical improvements, some patients still require an extra-anatomical revascularization: when and how to perform it.**
Ruggiero Curci
- 14.35 - 14.40 **Medical management of peripheral arterial disease: how new drugs could improve our patients' outcome.**
Eugenio Stabile
- 14.40 - 15.00 **Discussion animated by** *Andrea Ascoli Marchetti, Federico Faccenna, Martina Formiconi, Roberto Gattuso, Raimondo Grossi, Moreno Napoleone*

MAY, 22nd

HONORARY LECTURE

15.00 - 15.15 **An historical perspective on the treatment of critical limb ischemia.**

Frank J. Veith

MAY, 22nd

SESSION XI

Femoral, popliteal, and below-the-knee vessels diseases

Moderators: Giancarlo Bracale, José Fernandes e Fernandes, Giancarlo Palasciano

- 15.15 - 15.20 **DEBATE** Common femoral artery disease could be treated only by an open approach. For the motion.
Arnaldo Ippoliti
- 15.20 - 15.25 **DEBATE** Common femoral artery disease could be treated only by an open approach. Against the motion.
Martin Malina
- 15.25 - 15.30 **Deep femoral artery aneurysms: aetiology, natural history, and management.**
Felice Pecoraro
- 15.30 - 15.35 **DEBATE** Vessel preparation is now recognized as key to success in infrainguinal endovascular procedures, and could be effectively achieved by using non-conventional balloons.
Wassim Mansour
- 15.35 - 15.40 **DEBATE** Vessel preparation is now recognized as key to success in infrainguinal endovascular procedures, but balloons are not enough: rationale and results of the shock wave lithotripsy.
Aaron T. Fargion
- 15.45 - 15.50 **DEBATE** The only way to achieve a satisfactory vessel preparation during infrainguinal endovascular procedures is plaque debulking: intraluminal atherectomy.
Maurizio Cariati
- 15.50 - 15.55 **Advanced techniques and new tools for recanalization of complex and long SFA CTO.**
Roberto Gandini
- 15.55 - 16.00 **Is perioperative Clopidogrel safe in arterial surgery?**
Carlos Saade
- 16.00 - 16.15 **Discussion animated by** *Domenico Benevento, Andrea Esposito, Giuseppe Morettini, Jihad Jabbour, Pasqualino Sirignano, Silvio Vitale*

MAY, 22nd

SESSION XII

More on femoral, popliteal, and below-the-knee vessels diseases

Moderators: Fiore Ferilli, Carlo Setacci, Francesco Spinelli

- 16.15 - 16.20 **Mechanical thrombectomy by indigo system in acute lower limb malperfusion: results form an Italian experience.**
Gianmarco de Donato
- 16.20 - 16.25 **Endovascular treatment of popliteal artery aneurysms: is there a standard of care?**
Matteo Salcuni
- 16.25 - 16.30 **DEBATE Surgical bypass is the only reliable solution to restore a straight-line to the foot in CLI patients.**
Francesco Talarico
- 16.30 - 16.35 **DEBATE New endovascular devices have changed the game and now there are several endovascular effective solutions to restore a straight-line to the foot in CLI patients.**
Roberto Silingardi
- 16.35 - 16.40 **BAD transmission and SAD distribution: a new scenario for critical limb ischemia.**
Nicola Troisi
- 16.40 - 16.45 **Technique for tibio-pedal retrograde vascular access for challenging below-the-knee chronic total occlusions.**
Daniela Branzan
- 16.45 - 16.50 **The worst nightmare: lower extremity revascularization among patients with end-stage renal disease.**
Sergio Losa
- 16.50 - 16.55 **Never give up: hybrid deep venous arterialization for severe critical limb ischemia in patients with no option of revascularization.**
Roberto Ferraresi, Andrea Casini
- 16.55 - 17.15 **Discussion animated by** *Paolo Denaro, Sergio Furgiuele, Giuseppe Galzerano, Nunzio Montelione, Paolo Mortola*

MAY, 22nd

Controlled retrograde thrombotic procedure for hepatic artery aneurysm treatment.

Amato B, Belli A, Carbone F, Izzo F
Napoli

Re-entry catheter for D lesion of SFA: 5 years' experience.

Bonanno P, Ottavi P, Micheli R, Delis I, Grasselli F, Dante A, Ferilli F
Terni

Review of clinical and anatomical variables associated to limb graft occlusion after endovascular aneurysm repair (EVAR) and analysis of our cohort of patients.

Catanese V, Martelli E
Sassari

Symptomatic aortic paraganglioma: a multidisciplinary approach.

D'Alessio I, Boni L, Bellobuono A, Rolli A, Romagnoli S, Del Gobbo A, Settembrini A, Domanin M, Trimarchi S
Milano

Management of type B intramural hematoma: monocentric experience.

De Nigris E, Tinelli G, Minelli F, Natola M, S.Sica, Galli L, Tshomba Y
Roma

Use of a 3D printed aorta for simulating a Thoracic endovascular aneurysm repair in tortuous distal landing zone. A case report.

Di Bartolo M, del Pizzo R, Boschetti GA, Khourieh T, Visciglia E, Spinella G, Pratesi G, Pane B, Mambrini S, Palombo D
Genova

Endovascular Hypogastric salvage in de novo Common Iliac Aneurysm in patient with Aorto-Bifemoral by-pass for AAA.

Ferrante L, Giribono AM, Guzzardi G, Franciscone MM, De Simeis ML, Martelli M, Casella F, Cassatella R, Del Sette B, Carriero A, Porta A
Novara

MAY, 21st

CONCURRENT SESSION

RAPID PAPER SESSION I

.....

Emergent “open conversion” of Ch-EVAS in ultra-octogenarian patient with r-AAA.

*Giacchi F, Iacono G, Marchetti F, Turci S, Paciaroni E, Turicchia GU
Cesena*

Current results of thoracoabdominal aortic open repair in patients with connective tissue disorders.

*Grignani C, Kahlberg A, Ardita V, Baccellieri D, Rinaldi E,
Melissano G, Chiesa R
Milano*

Multistage treatment of acute aortic type A dissection.

*Khourieh T, Spinella G, Mambrini S, Pane B, Pratesi G, Del Pizzo R,
Di Gregorio S, Boschetti GA, Di Bartolo M, Visciglia E, Palombo D
Genova*

Effectiveness and mid-term results of selective intraoperative sac embolization during EVAR.

*Pasquadibisceglie S, Deleo G, Maggolini D, Froio A, Segramora V
Monza*

A propensity matched comparison of two commercially available iliac branched devices in patients with similar clinical and anatomical preoperative features.

*Masciello E, Fargion AT, Melani A, Speziali S, Dorigo W, Pratesi C
Firenze*

Case of cystic adventitial degeneration that affected the popliteal artery treated by primary great saphenous vein by-pass.

*Villani A, Di Nardo W, Gianfelice F, Franceschini E, Giansante A,
Musilli A, Maiorano M
Teramo*

Outcomes of endovascular repair of abdominal aortic aneurysm using the ultra low profile “Incraft” device: a retrospective multicenter study.

*Orrico M, Ronchey S, Setacci C, Citoni G, Ippoliti A, Bartoli S,
Codispoti FA, Mangialardi N
Roma and Siena*

MAY, 21st

CONCURRENT SESSION

RAPID PAPER SESSION I

CAS vs CEA.

Ottoveggio EM
Agropoli

Management of infected false aneurysm in drug abusers: two cases of extra-anatomical revascularization.

Prosdocimi L, Piazza M, Antonello M, Grego F
Padova

Role of drug-coated balloon on treating venous bypass stenosis.

Roscitano G, Villari S
Messina

Solving EVAR complication through a percutaneous access: a new technology to solve an old issue.

Trevisan A, Laurito A, Pecchio A, Sperti F, Tavolini V, Maselli M, Monti A, Zandrino F, Gaggiano A
Asti

AFX hybrid endograft for the treatment of challenging aortoiliac aneurysms in selected patients.

Stella N, Aloisi F, Maggiore C, Fermani N, Taurino M
Roma

Surgical complications in critical chronic ischemia.

Vigliotti G, Viola D, Di Lella D, Santini G, Spinetti F, Platì S, Di Lorenzo M, De Angelis E, Vigliotti RC
Napoli

MAY, 22nd

CONCURRENT SESSION

RAPID PAPER SESSION II (May 22nd, 08.00-09.00 | Room Mascagni)

Moderators
and Judges:

Giuseppe Galzerano, Wassim Mansour

Endovascular management of popliteal aneurysms.

Barbante M, Citoni G, Ascoli Marchetti A, Ciattaglia R, Diotallevi N, Ippoliti A
Roma

Use of Gore Iliac Branch Endoprosthesis over the instruction for use.

Bozzani A, Arici V, Corbetta R, Ragni F
Pavia

A post-procedural complication of carotid stenting: plaque prolapse.

Cecere D, Cappello E, Carrieri V, Fabozzi S, Pompeo F
Pozzilli

Complex anatomy in the treatment of a thoracoabdominal aneurysm.

Dalla Caneva P, Mortola L, Genadiev G, Arzedi R, Spanu F, Camparini S
Cagliari

Emergency endovascular treatment of recurrent internal carotid artery pseudoaneurysm coupled with latero-cervical fistula.

De Santis F, Chiappa R, Chaves CM, Morettini G, Notari P, Napoleone M, Stumpo R
Roma

Treatment of acquired and iatrogenic arteriovenous fistula complications in a center not dedicated to dialysis patients: Monocentric experience.

Ascoli Marchetti A, Diotallevi N, Sciarra A, Ranucci A, Ippoliti A
Roma

Forced complete femoral approach for urgent thoracoabdominal aneurysm repair using a branched endograft.

Fino G, Simonte G, Isernia G, Cieri E, Lenti M
Perugia

Long term results of open and endovascular repair for the treatment of the abdominal aortic aneurysm in patients < 70 years old.

Frola E, Gibello L, Verzini F, Frola E, Ripepi M, Peretti T, Trucco A, Varetto G, Rispoli P
Torino

MAY, 22nd

CONCURRENT SESSION

RAPID PAPER SESSION II

.....

Endovascular repair of a large hepatic artery aneurysm complicated by late type Ib endoleak.

Indelicato G, Faggioli G, Fenelli C, Dieng M, Pini R, Gallitto E, Mascoli C, Gargiulo M
Bologna

PTFE AVF as in-flow in sequential distal by-pass for limb salvage.

La Spada M, Barbera S, Magazzù E, Passari G
Patti

Below ankle revascularization for patients with diabetic infrapopliteal occlusive disease.

Mascellari L, Platone A, Paolini A, Cirielli C, Snider F
Roma

EVAR in aneurysmatic dilatation of cryopreserved allograft.

Mocellin DM, Berchiolli R, Marconi M, Puta B, Odeh O, Adami D, Ferrari M
Pisa

High-speed and low-speed trauma as a cause of popliteal artery and knee injury: our experience and review of the literature.

Ascoli Marchetti A, Naldi V, Ciattaglia R, Battistini M, Ippoliti A
Roma

Acute dissection: is a network necessary?

Ottavi P, Micheli R, Delis J, Grasselli F, Bonanno P, Dante A, Ferilli F
Terni

Combined surgical treatment of juxtarenal Abdominal Aortic Aneurysm (jAAA) coexisting with horseshoe kidney (HSK) with nephrolithiasis and left ureteropelvic junction stenosis.

Picone V, Giglio A, Maruca D, Di Girolamo A, Del Monte M, Faccenna F, Irace L, Berloco PB
Roma

Adjunctive surgical technique to reduce limb ischemic risk in complex endovascular thoraco-abdominal aortic procedures.

Pupo G, Simonte G, Isernia G, Casali F, PellICCIA S, Urbani A, Parlani G, Cieri E
Perugia

MAY, 22nd

CONCURRENT SESSION

RAPID PAPER SESSION II

Emergent endovascular management of aorto-enteric fistulae: a life-saving treatment in selected patients.

Rossi G, Bianchini Massoni C, Ucci A, Azzarone M, Perini P, Freyrie A
Parma

Long term results of endovascular repair for blunt thoracic aortic injury.

Spinelli D, Derone G, Barillà C, Pipitò N, Varrà A, Barillà D, Benedetto F
Messina

Initial experience with a new iliac branch device for the endovascular repair of aorto-iliac aneurysm.

Turchino D, Petrone A, del Guercio L, Giribono AM, Bracale UM
Napoli

T-stenting of the internal iliac artery as bailout in external iliac artery recanalization.

Venturini L, Chegai F, Brizi V, Gnoni M, Ortenzi M, Alberti D
Viterbo

MAY, 22nd

CONCURRENT SESSION

RAPID PAPER SESSION III (May 22nd, 13.00-14.00 | Room Mascagni)

*Moderators
and Judges:* Andrea Mazzari, Pasqualino Sirignano

Combining two different concepts of endograft in patients unfit for standard fenestrated endografts.

Barillà D, Derone G, Varrà A, Pipitò N, Barillà C, Spinelli D, Benedetto F
Messina

Paradigm shifting in varicose veins treatment: A cost-effective Protocol for Thermo-ablation.

Casabianca E, Vanni E, Monzani R, Civilini E
Rozzano

Management of aortoiliac and femoral occlusion after previous aortic aneurysmectomy.

Cimoli L, Zacà S, Pisanello S, Galeandro C, Marinazzo D, Angioletta D, Pulli R
Bari

Endovascular treatment for ruptured post Type B dissection aneurysm on a right-placed aorta.

De Donno G, Genadi G, Giordano A N, Pistincu G, Camparini S
Cagliari

Acute occlusion of descending thoracic aorta.

Battocchio C, Dezi T, D'andrea A, Taurino M, Rizzo L
Roma

The periscope technique in the emergency treatment of a ruptured type I thoraco-abdominal aneurysm.

Fenelli C, Faggioli G, Indelicato G, Dieng M, Pini R, Gallitto E, Mascoli C, Gargiulo M
Bologna

Long-term EVAR efficacy in young patients.

Gallitto E, Faggioli G, Mascoli C, Spath P, Pini R, Stella A, Gabellini T, Gargiulo M
Bologna

Endovascular repair of complex aortic aneurysms.

Gonfiantini F, Fargion AT, Masciello F, Villani F, Paperetti F, Giacomelli E, Pratesi C
Firenze

MAY, 22nd

CONCURRENT SESSION

RAPID PAPER SESSION III

Late CTA detection of reperfusion of a surgically excluded popliteal aneurysm in an asymptomatic patient.

Inchingolo M, Bianchi G, Curci R
Lodi

Endovenous Laser Ablation with 1470nm diode with tumescence anesthesia and sapheno-femoral ligation: propensity score match comparison.

Leopardi M, Salerno A, Dante A, Maggipinto A, Ventura M
L'Aquila

Giant aneurysm of in situ saphenous vein graft.

Maruca D, Di Girolamo A, Giglio A, Del Monte M, Picone V, Alunno A, Gattuso R
Roma

Sequential treatment of arterial occlusive disease involving all upper and lower limbs.

Mognarelli JC, Pegorer MA, Attisani L, Luzzani L, Bellosta R
Brescia

Evolution of a case of intramural hematoma.

Nespoli M, Aloisi F, Filippi F, Rizzo L, Taurino M
Roma

Carotid concomitant repair in sequence coronary repair.

Ottoveggio EM
Agropoli

Semi-conversions after EVAR: a 15-year multicentre experience.

Perini P, Attisani L, Bellosta R, Chisci E, Faggioli G, Gargiulo M, Michelagnoli S, Migliari M, Silingardi R, Freyrie A
Parma, Bologna, Modena, Brescia, and Firenze

Pharmacomechanical catheter-directed thrombolysis for acute iliofemoral deep vein thrombosis: our case series.

Rabuffi P, Vagnarelli S, Bruni A, Ambrogi C, Gallucci M, Danese M, Passaro G, Flore RA, Tondi P
Roma

MAY, 22nd

CONCURRENT SESSION

RAPID PAPER SESSION III

Results of surgical repair of carotid in-stent restenosis.

Siani A, Accrocca F, Ianni G, De Vivo G, Smedile G, Castrucci T, Bartoli S
Roma

Treatment of complications after endovascular repair of abdominal aortic aneurysms: a new centre experience.

Spinetti F, Santini G, Di Lella D, Viola D, Di Lorenzo M, Arienzo F, Vigliotti G
Napoli

Immunoglobulin G4-related inflammatory abdominal aortic aneurysm management: a case report.

Tomei E, Marconi M, Berchiolli R, Ferrari M
Pisa

Endograft's recurrent thrombosis: a challenging complication after EVAR.

Zuccon G, Mazzaccaro D, Malacrida G, Modafferi A, Righini P, Nano G
San Donato Milanese

Popliteal aneurysms management results of a tailored approach in a single center series.

Panzano C, Galzerano G, de Donato G, Cappelli A, Setacci C, Palasciano G
Siena

GENERAL AND SCIENTIFIC INFORMATION

COURSE DIRECTOR

Francesco Speziale

SCIENTIFIC SECRETARIAT

Laura Capoccia
Wassim Mansour
Pasqualino Sirignano
caput.meeting@gmail.com

ORGANIZING SECRETARIAT

G.C. srl
Viale Cortina d'Ampezzo 170
00135 Roma
Tel. 0685305059
e.mail: **segreteria@gc-conor.it**

CONGRESS LOCATION

NH Hotel Vittorio Veneto
Corso d'Italia, 1 - 00198 Roma

SECRETARIAT ON CONGRESS SITE

The Organizing secretariat will open half an hour before and close half an hour after the scheduled sessions.

TECHNICAL EXPOSITION

The technical Exposition will be held in parallel with the Congress.

REGISTRATION INFORMATION

The registration fee is complimentary.
The registration must be sent to (**segreteria@gc-conor.it**) G.C. srl.

PARTICIPATION CERTIFICATE

Participation Certificates will be released on May 22 nd to all the registered participants from the Secretariat when required.

OFFICIAL LANGUAGE

Slides must be prepared in English; presentation and discussion will be indifferently in Italian or English language.

SLIDE CENTER

Personal Computers **cannot be connected** directly to the projector. Faculty members are kindly required to deliver their presentations to the slide center at least 30 minutes before the beginning of their sessions.

Presentations will have to be prepared on Microsoft Power Point (.ppt) and in **16:9 format** and will have to be saved on a USB pen drive.

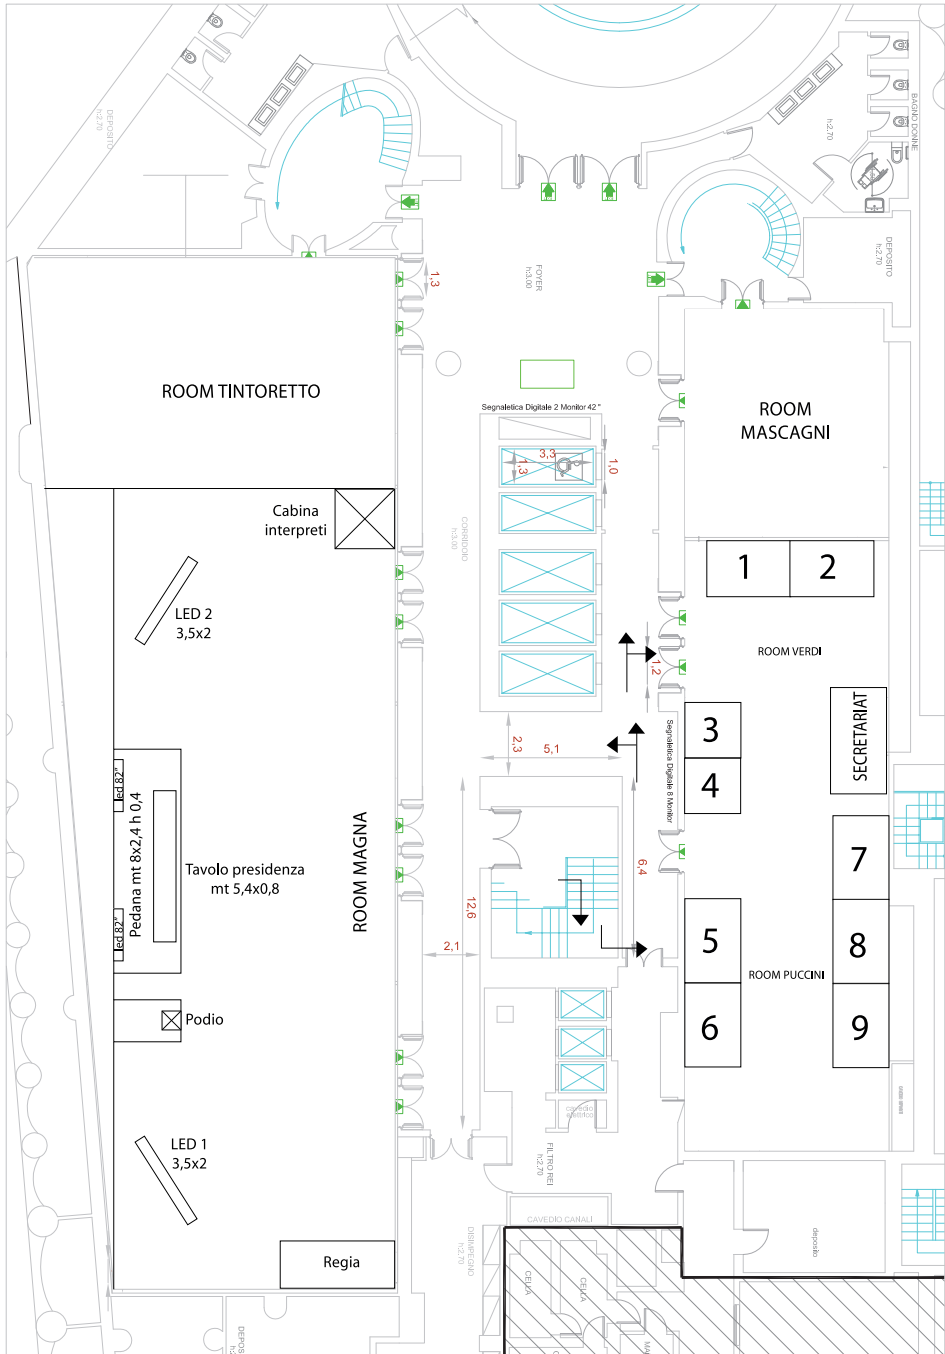

SIMULTANEOUS TRANSLATION

During the congress simultaneous translation from italian to english and from english to italian is provided.

AWARDS

The best Presentation of the Abstract Sessions and the best Rapid Paper Presentation, according to the Judges' opinion, will be awarded during the Closing Remarks.
