| 15.45 - 16.15 | Module 8 Quality control | MCQ Course evaluation | |
| 16.15 - 16.30 | Farewell | | |

The hands-on-workshop provides you with in-depth information around PIPAC. Besides the theoretical background you will learn how to apply PIPAC and what has to be considered to provide ideal conditions in the operating room.

The workshop includes a knowledge acquisition control.
