SLEEVE GASTRECTOMY & RYGB**

**AIMS Academy
Milano
Piazza Ospedale Maggiore, 3**

BARIATRIC SURGERY COURSE

Face-to-Face with Standard Procedures

TRAINING PROJECT DIRECTORS

Directors Prof. M.DE LUCA

Co-Director Prof. A. IOSSA

Prof. L. ANGRISANI

COURSE OBJECTIVES

The Bariatric Surgery Course aims to facilitate the understanding of a complex condition like obesity, clarify its potential surgical treatments, and its indications based on the recent Italian-SICOB guidelines. The live section of the course includes a 'see' part in which learners will observe live bariatric surgeries (sleeve gastrectomy, Roux-en-Y gastric bypass, single anastomosis gastric bypass, and duodeno-ileal bypass with sleeve) and a 'do' part in which they can practice the key aspects of surgical procedures on an animal model.

This is an opportunity to meet some of the leading experts in the field and test their technical skills in advanced laparoscopic bariatric surgery.

PATRONAGE

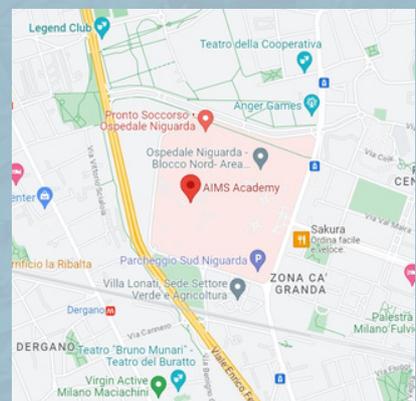

EVENT VENUE

AIMS Academy

Piazza Ospedale Maggiore, 3

20162 Milano (MI), Italy

AIMS is located inside the Niguarda hospital, in the north-west part of Milan.
